

AI-POWERED CAREER ROADMAP

Student → Data Analyst | Skills: Python · Data Analysis · Marketing | Timeline: 3 Months

CURRENT POSITION

Current Situation	Student
Existing Skills	Python · Data Analysis · Marketing
Strength Edge	Marketing + Data combo is rare & valuable

TARGET GOAL

Target Role	Data Analyst / Jr. Data Scientist
Timeline	3 Months (12 Weeks)
Avg Salary (IN)	■4–8 LPA Entry Level

SKILL GAP ANALYSIS

	Current Skill Level	Target Skill Level	Gap Level
Python	Intermediate	Advanced	Moderate
Data Analysis	Intermediate	Advanced	Moderate
SQL / Databases	Unknown	Proficient	High
ML / Statistics	Beginner	Intermediate	High
Data Storytelling	Basic	Strong	Moderate
Marketing Analytics	Good	Expert	Low

RECOMMENDED LEARNING PLAN

Month	Primary Focus	Secondary Focus
Month 1	Python Advanced + SQL	LeetCode (Easy/Med) · SQLZoo · Pandas deep-dive
Month 2	ML Fundamentals + Stats	Andrew Ng ML Course · Scikit-learn · Kaggle datasets
Month 3	Portfolio + Job Prep	3 Projects · Resume · LinkedIn · Mock Interviews

SUGGESTED PROJECTS

ID	Project Name	Skills Used	Platform
1	Marketing Campaign Analyzer	Python · Pandas · Business Insight	GitHub
2	Customer Churn Predictor	ML · SQL · Model Evaluation	GitHub
3	Analytics Dashboard	Viz · Storytelling · Streamlit	Portfolio

NETWORKING STRATEGY

LinkedIn	Post 1 insight/week on data or marketing analytics
Kaggle	Participate in 1 beginner competition
Outreach	DM 5 Data Analysts/week with personalised notes
GitHub	Daily commits — show active profile to recruiters
Job Boards	LinkedIn Jobs · Naukri · Internshala · AngelList

MONTHLY MILESTONES

Week	Key Milestones	Target Outcome
Wk 1–2	Complete SQL Basics + set up GitHub	3 SQL exercises / day
Wk 3–4	Finish advanced Python project	Project 1 pushed to GitHub
Wk 5–6	Complete ML course + Kaggle notebook	Top 40% on Kaggle entry comp
Wk 7–8	Build 2 portfolio projects	2 polished repos live
Wk 9–10	Polish LinkedIn + resume + apply to 20 jobs	10+ recruiter connections
Wk 11–12	Mock interviews + final project live	3 interviews scheduled

IMMEDIATE NEXT ACTIONS

Today	Create GitHub account · Start LeetCode Python problems
Day 2–3	Enroll in SQLZoo & Andrew Ng ML course (Coursera audit)
Day 4–7	Outline Project 1: Marketing Campaign Analyzer
Week 2	Update LinkedIn headline → 'Aspiring Data Analyst Python · SQL · ML'
