Sea (Ships)

INVENTORY
High Inventory

STRENGTHS

Cost is your strongest area at 27.

Choosing High Inventory for inventory strengthened the chain.

WEAKNESSES

Delivery Speed is your weakest area at 30.

Offshore for factory location is holding performance back.

Customer Satisfaction also needs attention (39).

BIGGEST RISK

Deliveries are too slow

Products take a long time to reach customers, so impatient buyers may cancel orders or shop elsewhere.

THREE PRACTICAL IMPROVEMENTS

1

Lift your Delivery Speed

For transport you chose Sea (Ships). Switching to Air (Planes) would raise your delivery speed.

2

Lift your Sustainability

For factory location you chose Offshore. Switching to Domestic would raise your sustainability.

3

Lift your Customer Satisfaction

For transport you chose Sea (Ships). Switching to Air (Planes) would raise your customer satisfaction.
