

LAKSHAY SHARMA

New Delhi | +91-8595202089 | lakshaymsharma@gmail.com | linkedin.com/in/lakshaysharma1981

PROFESSIONAL SUMMARY

Data Science student with hands-on experience designing data models, transformation pipelines, and BI dashboards using SQL, Power BI, and Databricks. Built end-to-end analytics solutions across healthcare, energy, and HR domains — including DAX measures, data quality checks, and medallion architecture pipelines. Strong foundation in data framework design, metric logic definition, and converting business requirements into structured analytical solutions. Seeking a Data Analyst role in the Delhi NCR region contributing to enterprise BI and data governance work.

TECHNICAL SKILLS

Query & Databases

SQL (MySQL), DAX, Power Query

Big Data & Cloud

Databricks, PySpark, Delta Lake

Data Framework

Data modeling, data lineage, medallion architecture, EDA

AI & Generative AI

Anthropic Claude API, Generative AI Fundamentals

BI & Visualization

Power BI, Tableau, Advanced Excel

Programming

Python (Pandas, NumPy, Matplotlib)

Governance & Ops

Data documentation, KPI design, data quality checks, reconciliation

Tools

Git, Microsoft Copilot, Databricks Workflows, Auto Loader

PROJECTS

Smart Energy Consumption Analytics Platform

2025

Databricks · PySpark · Delta Lake · Power BI · DAX · Databricks SQL Warehouse

- Designed a full medallion data framework (Bronze/Silver/Gold Delta layers) to standardize energy consumption data for enterprise BI reporting.
- Defined and documented data transformation rules and metric logic across pipeline layers using Databricks Auto Loader and Workflows.
- Built a Power BI dashboard connected to Databricks SQL Warehouse with DAX measures to surface KPIs on consumption trends and operational efficiency.
- Implemented data quality checks and reconciliation logic between pipeline layers to ensure reporting accuracy.
- Maintained data lineage documentation across Bronze-to-Gold transformations to support reproducibility and governance.

HR Analytics Dashboard

2025

Power BI · DAX · FastAPI · Python

- Developed 18 DAX measures organized into display folders covering attrition, headcount, and workforce KPIs — aligned to business-defined metric logic.
- Built a FastAPI-based attrition risk scoring API to operationalize predictive model outputs into the BI layer.
- Designed data model with calculated columns and structured relationships to ensure consistent cross-filter behavior and reporting accuracy.
- Applied Power Query transformations and a custom Power BI theme to standardize visual formatting across reports.

Clinisight Insight Hub

Oct 2024 – Dec 2024

Databricks · SQL · Power BI · Delta Lake

- Built a healthcare analytics BI dashboard transforming medical records into actionable insights on patient trends, hospital performance, and revenue patterns.
- Designed and implemented data cleaning and transformation pipelines using SQL to improve data quality and reporting efficiency.
- Structured the solution architecture to support future AI/ML integration, applying KPI design principles and cloud-based analytics workflows.

Pricing Strategy Analysis

2025

Python · Power BI · DAX · Pandas

- Conducted a four-phase analysis including synthetic data generation, EDA, a recommendations engine, and a Power BI dashboard with 30+ DAX measures.
- Translated business pricing requirements into structured analytical models and documented metric definitions for each KPI.

EDUCATION

KCC Institute of Technology and Management, Greater Noida

Jul 2023 – Sep 2027

B.Tech – Computer Science Engineering (Data Science) · Dr. A.P.J. Abdul Kalam Technical University

Jagdish Bal Mandir Public School

Mar 2022 – Apr 2023

12th CBSE – Physics, Chemistry, Mathematics with Computer Science

CERTIFICATIONS

- Claude with the Anthropic API – Anthropic | Apr 2026
- Academy Accreditation: Generative AI Fundamentals – Databricks | Mar 2026
- J.P. Morgan – Quantitative Research Job Simulation (Forage) | Aug 2025
- Deloitte Australia – Data Analytics Job Simulation (Forage) | Aug 2025
- Introduction to Data Science – Infosys Springboard | Jul 2024
- Advanced Excel Training – Corporate Finance Institute (CFI) | Jul 2021
