Scenario Log — Inputs & Outputs

1. Customer Churn Insight · Build the Prompt

✓ CORRECT

Input: Act as a customer analytics specialist. | Analyze the likely causes of customer churn. | Present the single biggest driver of churn. | Sugg...**WEAK → "Why do customers leave?"***Customers leave because of many reasons like price and service.***OPTIMIZED → "Act as a customer analytics specialist. Analyze the likely causes of..."***The biggest churn driver is slow customer support response time (42% of cancellations cite this). Recommendat...*

■ Focus the model on ONE clear deliverable rather than an open-ended question.

2. KPI Dashboard Summary · Choose the Best Prompt

✓ CORRECT

Input: Selected: Act as a data storyteller for executives. Summarize revenue, retention, and NPS trends in under 100 words, ending with one key ta...**WEAK → "Summarize the KPIs."***KPIs look fine overall this month.***OPTIMIZED → "Act as a data storyteller for executives. Summarize revenue, retention..."***Revenue up 8%, retention stable at 91%, NPS improved to 62. Takeaway: retention investments are paying off —...*

■ Set an explicit length constraint and audience to keep outputs meeting-ready.

3. Market Trend Brief · Choose the Best Prompt

✓ CORRECT

Input: Selected: Act as a market research analyst. Identify one emerging trend relevant to our industry, explain its potential business impact in...**WEAK → "What are the trends?"***There are many trends happening in the market right now.***OPTIMIZED → "Act as a market research analyst. Identify one emerging trend relevant..."***Emerging trend: AI-driven personalization in retail. Impact: could raise conversion rates 10-15%. Recommendat...*

■ Narrow scope to ONE trend for a usable, focused brief instead of an unbounded list.

4. Quarterly Sales Report · Clean the Prompt

✓ CORRECT

Input: Removed as clutter: Write a poem about sales. | Include the entire raw dataset in the answer. | Use as many technical jargon words as possi...**WEAK → "Tell me about sales."***Sales were okay this quarter, some products did well.***OPTIMIZED → "Act as a senior business analyst. Summarize Q2 sales performance in 1..."***Q2 sales grew 12% QoQ, driven by (1) new product launch, (2) expanded regional distribution, (3) improved ret...*

■ Specify role, format, and constraints for focused, usable output.

5. Inventory Optimization Note · Build the Prompt

✓ CORRECT

 **Input:** Act as a supply chain analyst. | Identify the product category with the highest excess inventory. | Explain the likely cause in one sentence...

WEAK → "Fix our inventory."

We should manage inventory better.

OPTIMIZED → "Act as a supply chain analyst. Identify the product category with the..."

Category with highest excess: winter apparel (32% overstock), likely due to inaccurate seasonal forecasting....

 Ground the ask in a specific scope (one category) to get an actionable answer.

6. Budget Variance Explanation · Choose the Best Prompt

✓ CORRECT

 **Input:** Selected: Act as a financial analyst. Explain why the marketing budget exceeded plan, state the single largest contributing cost, and propo...

WEAK → "Why is the budget over?"

The budget went over because of spending.

OPTIMIZED → "Act as a financial analyst. Explain why the marketing budget exceeded..."

Marketing exceeded budget by 18%, mainly due to an unplanned paid ads campaign (\$40K). Correction: require VP...

 Ask for cause, magnitude, and a fix — not just a vague explanation.
